Research Handbook on Law, Movements and Social Change

Edited by Steven A. Boutcher, Law and Society Association, Corey S. Shdaimah, University of Maryland and Michael W. Yarbrough, John Jay College of Criminal Justice, US

'This Handbook revisits and reinvigorates the law and social movements literature. Chapters connect old debates on law's mobilization in power disputes with new developments in social thought, political organization, and the geopolitics of knowledge. Amid the end of the liberal-democratic consensus and growing skepticism of law, it sets a new research agenda for socio legal scholars and offers valuable insights for practitioners and activists who will not give up on change.'

Research Handbook on Empirical Studies in Intellectual Property Law

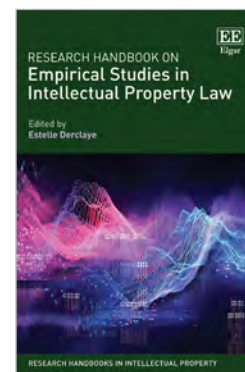

Edited by Estelle Derclaye, University of Nottingham, UK

'The Research Handbook on Empirical Studies in Intellectual Property Law makes a welcome and timely contribution to the field given increasing interest in using empirical methods to study IP law and its effect on innovation, competition, and access to knowledge. The Handbook shows how empirical methods contribute to knowledge and can complement and refine theoretical or normative arguments about IP. The Research Handbook is a valuable resource for scholars, policymakers, and practitioners in the field.'

The Law of Treaties

An Introduction, 2nd edition

Robert Kolb, University of Geneva, Switzerland

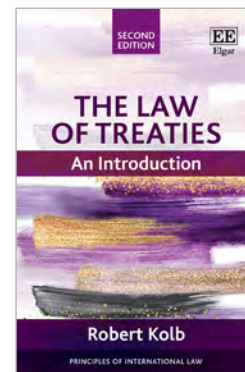

Acclaim for the first edition:

'Robert Kolb's The Law of Treaties: An Introduction is the best of its kind. Though encyclopaedic and sweeping in its breadth, the book brings out, with the clarity and insistence that characterize all of Kolb's writings, the underlying principles of state consent on the one hand with pacta sunt servanda and good faith on the other.'

Biotechnology, Patents and Human Rights in Europe

Innovations Concerning the Human Body

Helena Żakowska-Henzler, Żaneta Zemła-Pacud and Tomasz Żimny, Polish Academy of Sciences, Warsaw, Poland

'Patents in the field of biotechnological innovations as well as their enforcement have always triggered important tensions with a broad variety of human rights, in particular the right to health, human dignity, and the right to science. This very timely book explores these interactions, using an international, European and comparative law approach and offers a very stimulating analysis of the multiple legal and moral aspects of the topic, laying the foundation for an ethical approach to patent law in the future in the field of biotechnology.'

The EU and Constitutional Time

The Significance of Time in Constitutional Change

Massimo Fichera, University of Maastricht, the Netherlands

'Massimo Fichera has produced a highly original and enlightening extended essay on the way in which the passage of time is factored into the constitutional imaginary both of the modern state, and of the 'postmodern' European Union. In so doing, he offers an important response to those voices – theoretical and practical – that doubt the capacity of Europe to frame a common political future.'

IT Contracts and Dispute Management

A Practitioner's Guide to the Project Lifecycle, 2nd edition

Steven Baker, Proskauer Rose LLP, London, Lawrence Akka KC, Twenty Essex Street, London and Rachel Glass, Bird & Bird LLP, London, UK

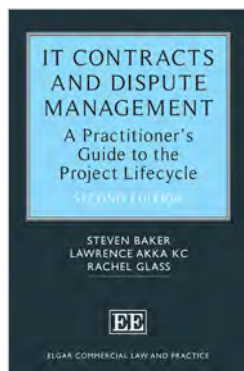

Acclaim for the first edition:

'This book presents a much needed treatise on technology project contracts, filling a significant gap in the market. The authors bring clarity and structure to the complex legal issues which often arise in the procurement and performance of IT contracts, as well as providing practical guidance on the avoidance or resolution of disputes arising from IT projects. This work should become a primary resource not only for in-house and external practitioners but also for project directors responsible for IT contracts.'

Advanced Introduction to Private International Law and Procedure

2nd edition

Peter Hay, Emory University, School of Law, US

Acclaim for the first edition:

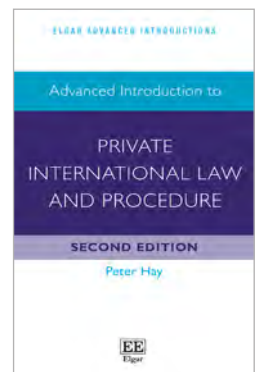

'Hay's book provides a splendid introduction to the field of European private international law and American conflicts law with respect to jurisdiction, choice of law, and the recognition and enforcement of judgments. [...] While the book's appealingly clear and logical structure is a boon to students of the field, its comparative flavour is definitely its most intriguing trait for academics. In short, Hay's Advanced Introduction must not be amiss in law libraries or on student desks – and especially not on scholars' collection shelves.'

Professional Judgment for Lawyers

Randall Kiser, DecisionSet®

'It's been nearly 15 years since Randall Kiser jumpstarted the field of lawyer decision making with his seminal study in the Journal of Empirical Legal Studies. Now, several books later, we have Professional Judgment for Lawyers, which weaves together the threads of neuroscience, evolutionary biology, psychology, emotion, and decision making with the context of lawyers, clients, judges, mediators, arbitrators, and jurors. This book can be safely viewed as Kiser's magnum opus, as the depth and breadth of learning (combined with its accessibility) is truly staggering. This is a book that belongs in every lawyer's library.'

Constitutional Crises and Regionalism

Vito Breda, University of Southern Queensland, Australia

'This book by Vito Breda constitutes a major exploration of a series of ethno-regionalism cases in Europe, North America, East Asia and Oceania through the lenses of constitutionalism and territorial politics. The author convincingly illustrates how cooperation among groups, respect between key political partners, and the protection of human dignity contribute to create the necessary conditions for political stability and reciprocity. Complementary to this sustained account, a crucial point is made to the effect that permanent negotiations among political partners open the way to the expansion of the democratic exercise while instilling a culture of togetherness. A must-read for anyone interested in the development of multinational democracies.'

English Corporate Insolvency Law

A Primer

Eugenio Vaccari, Royal Holloway, University of London and Emilie Ghio, University of Edinburgh, UK

'English Corporate Insolvency Law: A Primer by Eugenio Vaccari and Emilie Ghio is a welcome addition to the literature on corporate insolvency and restructuring. It is written in a very accessible, yet detailed and thoughtful, manner. The authors are justly known as academic experts in this field and have many publications to their credit. In that light, this work should receive due attention as a primer for all those wishing to embark on the study or appreciation of this fascinating and highly topical subject.'

Reparations in Domestic and International Mass Claims Processes

Justice and Money

Jason Scott Palmer, Stetson University College of Law, US

'The book succeeds at three levels: introducing international mass-claim processes, an important but understudied discipline; comparing international processes against those in the United States, revealing important insights; and providing practical guidance on contemporary crises – from the war in Ukraine to the Israeli-Palestinian conflict – born of the author's firsthand experience.'

The Debt Crisis of the 1980s

Law and Political Economy

Jérôme Sgard, Sciences Po, Paris, France

'The Debt Crisis of the 1980s: Law and Political Economy stands as the definite account of the 1980s debt crisis. Carefully written and thoroughly researched, it is a must read for anyone interested in the subject. As new political lenders put the post-1980s debt restructuring architecture under pressure, reading Sgard is as vital as it is urgent.'

The Legal Aspects of Shaming: An Ancient Sanction in the Modern World

Edited by Meital Pinto, Zefat Academic College and Ono Academic College and Guy Seidman, Reichman University, Israel

'The days of the Scarlet Letter may be over but shaming has been modernized and weaponized in a variety of ways, including on social media. But this is not a collection of anecdotes about the victims of digital shaming. This is an important collection that acknowledges shaming as a serious point of academic inquiry. It is a rich and refreshing look at shaming from multiple perspectives that explores many pitfalls but also the many promises of modern shaming punishments, including how shaming has been used in regulating large companies.'

Human Rights and Disasters

The Role of Positive Obligations in Enhancing Protection

Silvia Venier, Scuola Superiore Sant'Anna, Pisa, Italy

'This well-researched book provides an excellent and original contribution to the academic debate on the increasing relevance of human rights law in disaster management, by taking protection against extreme weather events, epidemic outbreaks and nuclear accidents as case studies. Silvia Venier offers an engaging and thoughtful analysis of the many ways in which international human rights law frames the conduct of States (and of other relevant stakeholders) across the disaster cycle. This book will prove to be highly valuable for practitioners or academics interested in the legal aspects of disaster management, covering issues that will only increase in significance in the very near future.'

AI and Big Data

Disruptive Regulation

Mark Findlay, Singapore Management University, Josephine Seah, University of Cambridge, UK, Singapore Management University and Willow Wong, Singapore Management University

'If you're looking for a thought-provoking read on governing AI and big data, then I highly recommend checking out this book. Using real-life examples, the authors offer a new approach to regulation that empowers people and promotes trust and data responsibility. The authors also provide practical pathways to advance digital self-determination and to promote fairness, and non-discrimination in how we use AI. Overall, the book challenges conventional thinking and is a must-read for anyone interested in technology and its impact on our society.'

Referendum Authorization Procedures in Europe

A Comparative Analysis

Anna Forgács, University of Zürich, Switzerland

"Direct democracy can only fulfill the promise of enhanced civic engagement and genuine democratic will-formation, if the direct-democratic instruments are well-constructed." Anna Forgács brilliantly demonstrates this core truth about direct democratic mechanisms by focusing on referendum authorization procedures in a mindfully selected number of European states. The book fills a void and is bound to become a cornerstone of studies on the design and legal limits of direct democracy.'

Implied Terms in English Contract Law, 3rd edition

Richard Austen-Baker, Lancaster University, UK

This book is the leading account of contract law in England and Wales in relation to implied terms. Implied terms are not only frequently of great importance in litigation, but can assist business parties in planning contracts effectively by allowing them to identify issues over which they do not need to negotiate because they would be content with the terms the law would imply. Distinct commercial advantages of this approach can include savings of management time in negotiating and avoiding trade-off costs demanded by counterparties in exchange for agreeing an express term.

EU Supervision of Energy Derivative Trading

Liebrich Hiemstra, Guest Lecturer, Tilburg University, and Senior Legal Counsel, Vattenfall N.V., the Netherlands

'This book provides a very valuable contribution to the literature on good governance relating to the supervision of derivatives trading in the energy sector. The relevant European principles and rules are carefully discussed and analysed within the very complicated multilateral and multi stakeholder context of this field of EU regulation. The book provides clear recommendations and suggestions for enhancing the regulation and supervision of energy derivatives trading and the enforcement activities of ACER and the cooperation with the national authorities. The book is invaluable for those who are working in practice and in academia on the financial aspects of the energy market.'

State Theory and the Law

An Introduction

Thomas Vesting, Goethe University, Germany

'This is a timely book that takes a fresh look at an old concept: the state! The original approach chosen by Thomas Vesting consists in a new theory of the state that is focused on its cognitive and cultural meaning. It builds a bridge between legal and political sciences and sheds new light on the knowledge base of both state and society. It rewrites the history of the state and reconfigures the conception of the state of the network society.'
